

2. Sentry gear box, on skid, crank arms and 4 sets of weights, needs new chain and sprocket.
3. OCS type 20D1 54", stroke, needs chain, has skid and motor rails. Broken sprocket.
Serial Number 12563
4. Oilwell type OP20HP 54", stroke, 1 arm unit, has weight and broken arm
Serial Number 23750
5. OCS 15 D gear box, crank arms and wrist pin on 2' sub structure with horses' head
Serial Number 15573
6. National (American) type HD46TB, 54" stroke, needs bearings, gears worn, has motor rails
Serial Number 2159
8. National type H40T, 54" stroke, on 5" sub structure, has reduction shaft, disassembled
Serial Number 2231
9. American size T12C, 48" stroke, mfg 3/10/54, twisted beam and broken wrist pin, disassembled, has weights
Serial Number T12C 1389
10. Cabot size 40 DB, 36" stroke, on 3' substructure with walkways and steps and motor rails, ready
Serial Number D403637
11. National H46DB, 54" stroke, on 3' substructure, reduction shaft, disassembled, motor rails
Serial Number 4660
12. American Type 80-110, 54" stroke, mfg. 6/18/77, needs saddle bearing and crank weights, disassembled, has motor rails
Serial Number T11F5422440
13. National type TUS464, 54" stroke, has reduction shaft, complete, ready
Serial Number 2354
14. Bethlehem size 51D, 28" stroke, gear box, motor rails, needs horse head, good unit assembled
Serial Number 9902
15. IDECO size 57, 44" stroke, complete, has motor rails, ready
Serial Number 421
16. Oilwell type TC-20B, 68 gear box type D-23, complete, extra arm for rod line, no crank weights, good unit
Serial Number T63B and T125-319
17. Parkersburg air balance size 6228D, 44" stroke, has compressor
Serial Number P7564
18. National type HD30TB, 54" stroke, bad gears, runs, 2' substructure
Serial Number G616

19. National type HD30TB, bad gear box, 2' substructure
Serial Number 7543
20. American D57, gear box loose, no horses head
Serial Number D57469
21. Bethlehem size 40D, 26" stroke, bad gear box, complete
Serial Number R 672
23. Sentry CH114, No beam, horses head or arms, no motor rails, left crank arm and shaft
25. Oilwell, 72" stroke, has a 11374-B Parkersburg gear box with 6.5 shaft with Oilwell 25
crank arms, weights and beam, disassembled, complete with motor rails
26. Cabot size 57 D, 52" stroke, 2' substructure, no motor rails
Serial Number D57119F
27. IDECO D75, 54" stroke, partially disassembled, beam and arms missing
32. Alten type A80, 30" stroke, with electric motor, bull gear broken
Serial Number 1440
34. Alten type D70A, 42" stroke, complete, Serial Number 357
35. National type E57D, 44" stroke, gear box problems, probably needs box
Serial Number 29972
36. Oilwell type 9A9, minus gear box
Serial Number T167-728
40. Oilwell T152-44, no gear box, etc., 23 on weights, arms bent
Serial number T163
41. OCS IOS, 36" stroke, complete
Serial Number 17569
43. Lufkin #6
44. Whitaker T114, disassembled, no wrist pins
Serial Number 602-1-93
45. Grasshopper Mark II, appears to be complete
Serial Number 11-20-6-0-1
46. Oilwell 1105-25-23 D8, complete gear box looks good, saddle bearing probably needs repair
50. Alten 25R-3
51. Cabot AC 1310
